

## County Seat News

### Items of Interest From our Mora Correspondent

(Irvin Ogden Sr Correspondent)

School election in Mora was a big day, Monday. Twenty or more cars were running all day bringing voters to the polls which were held by the School Board at the Co. Supt's office. It was not much enthusiasm for the candidates as it was chance to test strength and show which party had the most adherents. The Republicans were jubilant over the re-election of Leandro Muniz while the Democrats were well pleased that their candidate Nilalas Martinez held him down to a majority of but 18. The total vote cast in this district was 165.

It is believed the democrats have elected their ticket in most of the other districts. An effort was made to keep women from voting in several districts and Co. Supt has been busy setting right the many disturbances that have been started.

A pleasing innovation was attendance at a program and contest given by the teachers and pupils of the Presbyterian school at Holman last Friday. Contests in spelling and arithmetic proved well taught school and bright children, and in the evening the program given was one that many schools in the east-end could not surprise.

Readings, vocal music and tableaux, drills and costumes were all simply fine.

County Surveyor E.J.H. Roy was here Monday with Atty Geo. H. Hunker and his assistant, Mr. Noble, of Las Vegas. They were getting action on the surveying and platting of the Wagon Mound School District so that they can re-advertise and sell their School Bonds. The oversight by many districts in this detail will interfere with the sale of their bonds as the law specifies that all districts must be platted, the corners and boundaries marked and a plat filed with the Co. Superintendent before Bonds can be legally issued.

The desired order was secured for Wagon Mound and will doubtless be allowed by the County Commissioners, now in session.

Luis Pacheco, Dep. Clerk of the Court, is a witness in a case in court at Santa Fe, this week. He drove down in his "Submarine" J. P. Maes accompanying him to see that he didn't get in car trouble enroute.

Corporal Maes has been appointed Military Instructor for the boys of the Mora Schools. He proposes to teach them the signal code, the manual of arms and a number of things that will get their shoulders back and their chests out as well as wise them in the head to a lot of things that will be good for them. It is a good thing for the schools and they are getting free, the service of an instructor that many schools are glad to pay a good salary for.

Levi Madrid, in the Supt's office, has a Studebaker-6 since last week. He brought it home thru the snow storm which left 6 inches of the beautiful on the ground here but didn't even sprinkle half way to Vegas. Levi is justly proud of his new transportation.

An injunction suit to prevent the building of a wooden flume in the irrigation ditch along the Scenic Highway down Mora Canyon between Mora and La Cueva, is threatened. It will have to land soon or the ditch will be finished before it is served. The Jim Prichard Construction Co. is building it which means it won't be all summer doin'.

A trapper with a permit, is catching beaver down the river. It is necessary to reduce the number in order to prevent damage to irrigation ditches. He has several high priced pelts out drying.

Harry T. Irwin, is here with the County Commissioners and hurrying to get back to his farming. He is sure enough from the "East End" now, or soon will be. He and the other officers feel keenly the complaints and criticism that comes to them from the legacy of troubles and maladministration of former officials in many places and ways.

It is the wish of some of the things that are well known here and the proof of on record be aired and is even suggested that your correspondent write up some things. We will not attempt it, however no yet.

Prosperity and advancement have not spoiled one old New Mexico enthusiast. He is on the highway to success but remembers old friends here.

The trees are budding and our apple and pear trees will soon be in blossom in the backyard and the pasture is a mat of greensward tacked down with gold-headed tacks, and it looks mighty good. Our sub-irrigated tract is one that pays no attention to the rainfall, the springs run from under it all the time. If we had 160 acres of this valley land we would call it a farm.

Pacheco and Madrid have opened up their picture show again after a long vacation during Lent. They had a fine business Sunday evening at the opening.

The dance Saturday night drew a good crowd but people had gotten out of the habit and it will take a few weeks to re-establish the custom again.

This copy is written under difficulties and is abbreviated but still long enough.

THE contract is let for the new highway from Mora to Ocate and Black Lakes to connect with the Raton-Cimaron road and the same contractor who built the Mora Vegas road will take his equipment on up the valley this spring. The new Contract is for \$74,000.00 and covers over 50 miles of road so it evidently won't be rock-surfaced. The road from Holman thru Porte del Hombre pass will also be made fit for auto traffic via Toas. This main street will be no place for "Jay-walkers" this summer when the traffic starts.

Ben Brown and his Mentiras have almost driven us to desperation. We warn him and here that we shall start writing spring poetry—yes, and publish it where he'll have to read it if he don't stop.

That Mills correspondent meant alright when she tried to correct the intelligent compositor last week, only she didn't get his case diagnosed right. We might set her straight by saying that he has a wrong font of mats in his magazine, his space-band is bent, the metal has "froze" in his think tank, and he is out of chawin' tobacco but otherwise he is all right even if he can't spell and don't care a—where he divides his words.

I don't think the "Devil" has anything on the ex-printer (DEVIL.)

#### PALOUSE VALLEY

Martin White is attending to business in Oklahoma.

Mrs Ida Brown's children have the measles this week.

#### FOR SALE

One span of 8 year old work horses, also good wagon and almost a new set of harness. If interested, write to E. Evans Mills, New Mexico.

Mr. J. A. Stevenson was in Roy Wednesday and informed us that he and Mr. Adams will open up and establish an office in Mills where they will take care of all kinds of veterinary work. Both of these men are graduate veterinarians and will fill a long felt want of the Mesa. Read their ad which appears elsewhere in the S. A.

Wm. Schoenertedt was in Roy Wednesday and tells us that he has purchased the Old Bentley Block in Mills, and will arrange it into a Hall and living quarters. He also tells us that he has opened up a shoe repair shop and left a nice ad with us which will appear in the S. A. for a few weeks.

A. T. Carter and Wm. Heath were over from Kephart the first of the week trading with Roy merchants. Both of these farmers know where to go to trade to get the best bargains on the mesa.

H. C. Barrett and family moved to Fort Sumner the first of the week. Mr. Barrett has resigned his position with the R. P. Shaya Co. and will enter a similar position at Fort Sumner.
